IMPORTANT TO ARCHITECTS.

Something New and Highly Artistic in the line of Artistic Decoration.
NO MORE PLASTER CEILINGS NECESSARY.

THE J. M. WADE "MOSAIC-INLAY" DECORATIVE CO., of 170 Fulton Street, New York, are prepared to furnish estimates for supplying Panels for Ceilings, Friezes, Walls, Doors, Mantels, Screens, etc., plain or beautifully decorated on the natural wood in our patented "Mosaic-Inlay," which is a perfect fac-simile of the most costly inlaid woods, with this advantage over the latter, that it will stand ordinary heat, is unaffected by moisture, and is consequently very durable.
Thus you may have a dining-room, ceiling and walls, panels of doors, etc., finished complete in English quartered oak or other suitable woods, with game pieces or other suitable designs executed to order in "Mosaic-Inlay," on wall or ceiling panels or both, at less than one half the cost of the ordinary work with all of its beauty of finish and none of its disadvantages. A library can be decorated complete with profile medallions introduced of any favorite author, or quotations, proverbs, etc., in any artistic style of lettering desired.

We would especially ask your consideration of the following advantages claimed by us and allowed by the leading Architects of our system of Wood Trim and Decoration:
First—Our work is done on three-ply "built up" panels of natural wood selected for its beauty of grain or growth and color, which you will of course appreciate as being vastly superior to single ply wood, even as a built up door is to an ordinary one.

"MOSAIC-INLAY."

Second—While our work can be fastened over the plaster, when it is already in, it obviates the use of plaster entirely, thus affording not only beauty and comfort, but security against the danger of falling plaster.

Third—Our work is all finished and decorated at our New York establishment, and sent in section ready to place in position, with accompanying diagram or drawing, so comprehensive that any ordinary village carpenter can put the whole up satisfactorily, or when the distance is not too great we send out our men.

Fourth—We guarantee to give each of our patrons something unique in point of design, and do not duplicate our designs. We work out Architects designs or suggestions without extra charge.

Fifth—Our work and decoration have no reliefs to wear or harbor dirt. It is not cut off by the yard, but made expressly for you at very little advance over what you would have to pay for stereotype designs.

Sixth—Our system embraces the best one extant at the price from a sanitary point of view. We place the panels in position on the studding, the chamber formed between the panels and outer walls or weather boarding being filled with a composition of sawdust, made fire and vermin proof, thus acting as a non-conductor of heat or sound, excluding the cold of winter and the heat of summer.

We shall be glad to furnish estimates or supplying plain, partly decorated, or wholly so, panels for ceilings, walls, etc., of any design.
In order to meet the fast increasing demand for samples of our work, we have prepared the following articles: An Umbrella Stand and a Waste Paper Jar, manufactured by the UNION INDUSTRATED FRAME CO. and decorated by us, showing architectural designs, which we will forward to any part of the United States on receipt of the following prices:
Umbrella Stand, \$3.50; Waste Paper Jar, \$2.25.
